Telugu

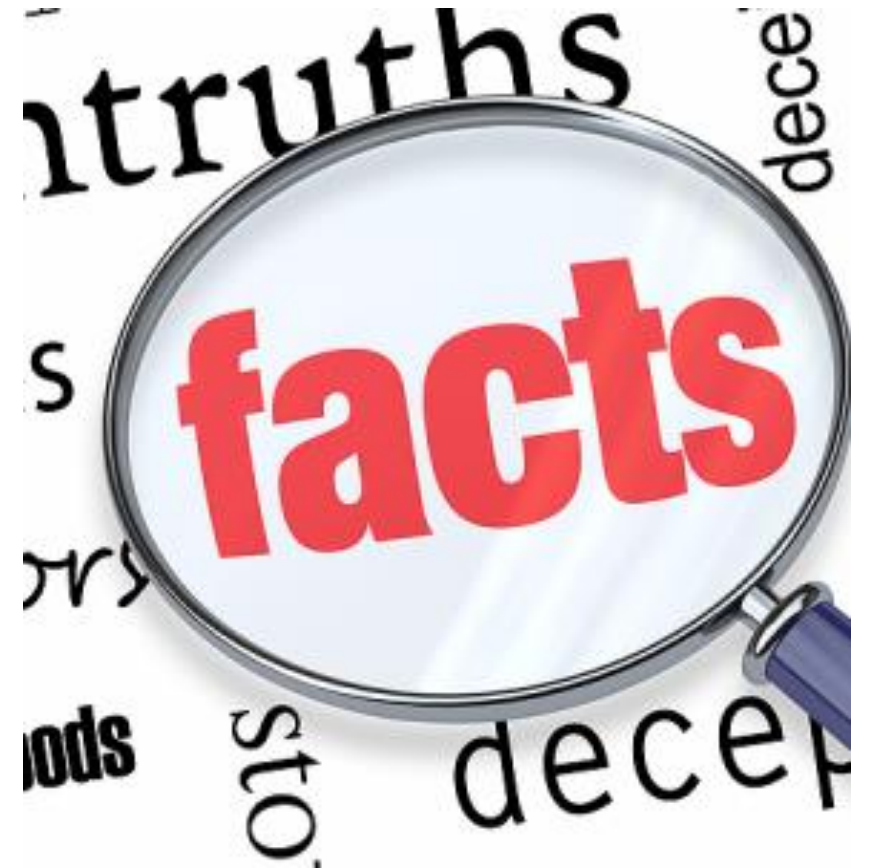

By: Nihal Kasturi

Do you guys know anything about this language, or have you heard anything about this language????

Basic fact about Telugu

- Telugu is a language spoken in Southern India, and it evolved from another ancient language called Dravidian.
- Telugu is roughly 2,500 years old, and it was roughly created in 500 BCE.
- It is currently the 4th most spoken language in India and 14th most spoken language in the world with more than 96 million speakers.
- Some people believe that the creator of Telugu is Renati Chola a rich, and a religious king.
- Telugu is spoken across two main states (provinces). Which are Telangana, and Andhra Pradesh. The only difference between both the states is the pronunciation of the words, dialects, and accents.

Map on where Telugu is spoken

What are we known for

We are mostly known for the spicy food we eat, as we eat the spiciest food in the country.

We are also known for making the best Biryani a flavorful rice with spices, and vegetables. Along with spicy pickles

We are also known for our unique dance called Kuchipudi, and our classical singing. With famous temples as well, like Balaji temple.

But most of all we are known for our worldwide known movies. With extortionary directors, and actors.
